

Personal Information

Nationality German
Languages German (native), English (C1), French (B2), Spanish (B2), Kinyarwanda (basic)

Education

2006–2010 **Elementary School**, *Kallstadt*
2010–2019 **High School Diploma (Abitur)**, *Werner-Heisenberg-Gymnasium Bad Dürkheim*
Final Grade: 1.8
2020–2024 **Bachelor of Science, International Degree Program in Biomimetics**, *Hochschule Bremen*
Final Grade: 2.1
210 ECTS Credits
Bachelor Thesis: Influence of proteins on the damping properties of cuticle as a model for bio-inspired lightweight construction
Grade: 1.2
Published: Co-authored journal article on insect tibial cuticle mechanics
Methods: Sample preparation of locust tibiae, Micro-CT scanning and post-processing, Dynamic mechanical analysis
Aug 2026 **Master of Science, Medical Engineering**, *KTH Royal Institute of Technology, Stockholm, Sweden*

Grading Scale: German system where 1.0 = excellent, 6.0 = fail

Professional Experience

Volunteer Service

Jan 2025 – **weltwärts Development Volunteer**, *Jumelage Rwanda, Sugira Network, Kigali*
Jul 2026 18-month placement through Volunta (weltwärts programme)
Social Department (primary): Worked in partnership with local networks serving people living with HIV, widows, and people with disabilities
Local Governance Exchange (secondary): Partnership coordination in Kallstadt–Rutsiro municipality exchange
Documentary & Media Production: Designed and implemented Python/JupyterLab-based video editing pipeline incorporating BLIP-1 image captioning, Demucs audio separation, Descript transcription, and Shotcut assembly for annual institutional documentary film
Project Advocacy: Collaborated with Special Olympics expertise to design inclusive sports capacity-building programme for children with disabilities; project approved early 2026 with phase-one implementation ongoing
Cross-cultural project coordination and stakeholder engagement in complex, low-resource environments

Paid Work & Research Support

Apr 2023 – **Exhibition Supervisor**, *Universum Bremen*
Dec 2024 Bridged complex scientific concepts and public understanding through daily engagement with 100+ student and visitor groups
Designed and delivered demonstrations on biomimetics, materials science, and engineering principles
Developed science communication skills and learned to translate technical information into accessible, compelling narratives
Oct **Student Assistant**, *Biological Materials Research Group, Hochschule Bremen*
2021–Aug Preparation of fine plastic samples and biological specimens for mechanical testing
2022 Operation of heavy machinery and precision laboratory equipment
Support for ongoing materials science research

- Apr **Tutor, MENTOR Tutoring Service**
 2021–Aug Mathematics, Biology, English, French instruction
 2022
- May **Rapid Testing Analyst, COVID-19 Testing Center, Bremer Hockey Club**
 2021–Aug Conducting and analyzing rapid COVID-19 tests
 2022
- 2017–2019 **Assistant Coach, Ballschule, Bad Dürkheim**
 2017–2019 **Server, Hotel-Restaurant Weinhaus Henninger, Kallstadt**
- Mar–Sep **Logistics Operator, Weser Kurier, Print Logistik Bremen GmbH**
 2021
- 2013–2019 **Youth Counselor, "Kinderbibelwoche" Holiday Camp, Kallstadt**
 Annual participation facilitating outdoor programming for children

Research & Internships

- Sep 2024 **Student Assistant, Biological Structures and Biomimetics Research Group, Hochschule Bremen**
 Continued independent research building on Bachelor Thesis findings
- Sep 2022–Feb 2023 **Research Intern, Davis Strait Expedition, Greenland Institute of Natural Resources, Nuuk**
 Operated in high-stakes, physically demanding offshore environment sampling zooplankton and identifying fish larvae to understand Arctic species distribution patterns relevant to potential climate-driven ecosystem shifts
 Sampling and preservation of zooplankton specimens
 Identification and dissection of fish larvae and prey species
 Collection of water samples and CTD profiling data
 Demonstrated precision in challenging Arctic conditions while integrating seamlessly into multidisciplinary scientific crew
- June 2017 **Intern, Printing Company (Print ONLine), Bad Dürkheim**
 Media design and Web design projects
- June 2015 **Intern, Veterinary Practice, Freinsheim**

Extracurricular Activities

- 2004–2024 **Competitive Field Hockey**
Dürkheimer Hockey Club (2004–2020): State Selection Team, Rheinland-Pfalz-Saar (2010–2016)
Bremer Hockey Club (2021–2024): Including 1. Bundesliga appearance
 16+ years of dedication developing deep understanding of team dynamics, discipline, and strategic decision-making under high-pressure competition
- Since Nov 2020 **Martial Arts: Jujutsu Do & Combat Karate, Hochschulsport Bremen**
 Green belt with Sempai (instructor) title
 Focus on effectiveness of technique, mechanics of self-defence, mental discipline, and continuous technical mastery through structured practice
- 2025–2026 **Hiking & Outdoor Leadership, Beyond the Hills (Co-founder), Kigali**
 Co-founded community hiking group facilitating outdoor experiences and building inclusive outdoor culture
 Led expeditions on Rwanda's major volcanoes; 4 of 5 summits completed
 Recently completed 2026 Kigali Peace Marathon (42 km, 5:17)—challenging personal limits beyond natural distance strength to demonstrate capacity for growth beyond comfort zone
- 2010–2018 **Cross-country Skiing, Bayerisch Eisenstein**

International Experience

Sep 2019–Sep 2020 **Work & Travel, New Zealand**
Seasonal vineyard work (Focus Labour Solutions, Blenheim)
Weekend hospitality work (Top Ten Holiday Park, Blenheim)
Dairy farm assistant and orchard work (MAKA Ltd., Lumsden)
Self-funded international experience; supported own education through continuous work across multiple roles

May 2019 **EU Interrail Program, Cross-European Travel**

Jan 2025–Jul 2026 **Development Volunteer, Kigali, Rwanda**

Professional Interests

Medical device design and engineering solutions for low-resource and field settings
Biomimetic approaches to solving technical and materials challenges
Cross-cultural partnership and intercultural development on eye level
Science communication and public engagement with complex technical topics
